Team Approach

Question 1: How well do team members understand the problem?

Our team understood the problem well. Every member knew what the project outlines were and we all worked as a team to complete them.

Question 2: How are the project tasks achieved?

We split the group work for each person and reviewed what each person did afterwards

Question 3: How did the team approach solving a problem?

Whenever one of our team members encountered an issue while trying to solve a problem we ask our other group members for help. As well we set up meeting/brainstorming sessions weekly.

Question 4: What approach was taken to solve the problem?

We brainstormed ideas and did a trial and error to see if that fixed the problem.

Overall Comments on team approach:

Overall I think our team approach worked effectively. We were able to stay on task and complete the work that needed to be done. Every team member pulled their weight in the group.

Team Coordination of Task Responsibilities

Question 1: How actively did team members take in interest and supported in terms of individual member responsibilities?

Even though individuals in the group had their own specific roles to complete. Other members would actively take interest in each other's roles. This help with problem solving and bouncing ideas off each other

Question 2: How well did the completion of tasks require active interchanges and sharing of information among members?

We were able to communicate and share what we did. We had some tasks that needed to work off other tasks to be done.

Question 3: How well did the assignment of tasks to individuals match their expertise?

We looked at everyones skill set and give tasks that match there skill set

Question 4: How well did the team coordinate individual task assignments?

We were able to assign each person individual tasks that wouldn't affect the progress of the final work and worked in an efficient manner.

Overall Comments on team coordination of task responsibilities:

Overall our team coordination of task responsibilities worked well. We consistently had team meetings. This helped mitigate any confusion any team member might have had.
